# Information Technology Department

### **Department Overview**

The Information Technology Department provides administration and support for all areas of Information Technology for the Board, Town management, and Town staff in an effort to assist in delivering efficient, high quality, cost-effective services to the residents of Nags Head.

#### **Information Technology**

Information Technology is responsible for planning, budgeting, installation, maintenance, and support, of Town computer systems, software, phone systems, network operations, and peripheral devices. Peripheral devices include presentation equipment, PDA's,

cameras, and cell phones. The Information Technology Department provides technical assistance and support, researches information technology solutions applicable to Town use, ensures the preservation and security of Town data, delivers information via the Internet, and assists in technical training to ensure the smooth operation of government, for the Board, Town management, Town staff, and Town citizens.

NOTE: The Information Technology Department was previously a division of Administrative Services. Therefore, historical expense detail prior to Fiscal Year 06-07 is unavailable.

#### Goal

Promote quality service for town employees and citizens through the efficient and effective administration of information technology for the Town.

### **Objectives**

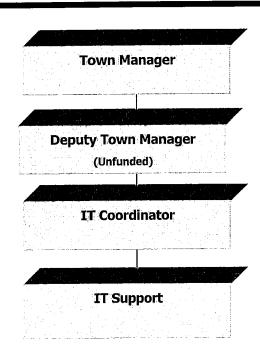

- Evaluate, maintain, support, and update the Town's information technology systems for the delivery of high quality, efficient and cost effective information technology.
- Coordinate and integrate the development of information technology for the town.
- Research information technology solutions to find the best solutions for maximizing investments in information technology for Town operations and services.
- Develop relevant, efficient, and reliable ways to utilize information technology.
- Identify information technology training needs, make recommendations for training, and assist in training to maximize the benefit from using Town information technology.
- Preserve and protect the Town's data and information systems.
- Maintain required hardware and software licensing.
